

A Little Poem for the Sea

Helps Cancer Research.

It's seven pm on the beach there are
a lot of closed umbrellas
The sand is so cold under my feet
and I can hear distant thunder in the sky

The wind is touching my heart and my soul
Raindrops change a picture before me
Waves and people play the game of life
The rain looks like tears of passion on my skin

Blue clouds in a stormy summer sky
a seagull is flying over the sea
I'm coming home to you baby
and the sea is falling down on me
